
Vision numeric UK moves to new offices!

Visit us now @ the Big Peg, Birmingham

On August 25th, Vision numeric UK moved into new offices at the Big Peg in Birmingham. Our new address is now 120 Vyse Street in the Jewellery Quarter in Birmingham. It will be easy to find us as the Big Peg stands by the Clock Tower at the junction of Warstone Lane and Vyse Street. It is the home to a bustling working community that we have just joined!

These new offices will be the opportunity to launch new campaigns, visit customers, promote new applications through open houses, etc. Of course, Vision numeric UK also provides software demonstration at your convenience and technical support to all its customers.

Vision numeric UK's staff is pleased to move to such a nice location and to enter such beautiful new office space. It is also the occasion to prepare regular events either on site or around the country. The UK team is highly motivated to begin a winning business season with its customers along with this new beginning at the Big Peg.

For questions regarding training schedule, technical support or pricing please call 247-624-3637.
