

MACH 2006

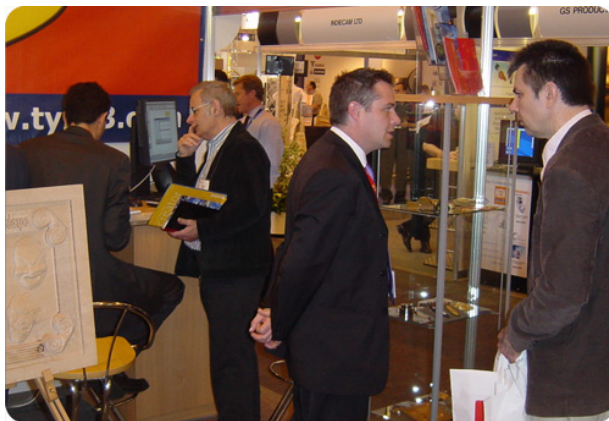

Vision Numeric at MACH 2006
NEC . Birmingham

MACH 2006, UK's largest and most successful exhibition for manufacturing technologies was held once again this year at the NEC in Birmingham from May 15-19. MACH is the showcase for Excellence in the UK for Manufacturing Technology and Innovation. With over 20,000 visitors, it is the networking point for all manufacturing professionals.

Vision numeric presented its Type3 solutions to an increasing number of contacts this year. Present on the show were:

- TypeEdit: the leading CAD/CAM software for CNC machining
- LaserType: the professional laser-dedicated software

Exclusively during the show, Vision numeric presented a few of TypeEdit 2006's new features. Professionals showed true enthusiasm for these new features, especially in the mold industry where Type3 solutions are really made to meet their specific needs.

MACH is also a great opportunity to network with partners, customers and other professionals from various industries to enhance our products and services.

About VISION NUMERIC:

Established in France in 1988, **Vision numeric's** mission is to bridge the gap between the world of graphic arts and the industrial engraving industry. Marking, identifying and decorating are different needs expressed by professionals. With over 30,000 seats sold worldwide, the **Type3** product family is recognized today by professionals in the Mold & Tools, Sign, Packaging and Jewelry industries as the essential solution, whether they are working in a mechanical, laser, or rapid prototyping environment.
