

Denis Mourlam Jeweler, FRANCE

Denis Mourlam is a jeweler who graduated from the "Institut National de Gemmologie" (National Institute of Gemmology) of Paris. He is established in Yonne, a county located in the North of Burgundy and has been operating his own jewelry design and sales business since 1980.

Denis Mourlam has been operating **3DESIGN** since 2005. He was **attracted at once by the professional and user-friendly aspect of 3DESIGN**. Denis Mourlam did not take a training session but mastered the software in no more than 2 weeks just doing all the tutorials.

3DESIGN is a truly **powerful and intuitive tool**: **"With 3DESIGN I feel like a kid making drawings on paper with color pencils."** From a more pragmatic point of view, Denis Mourlam asserts that the **Weight function is very useful**. 3DESIGN allows you to **save much material**, deliver more **accurate cost estimates** and **save a lot of time** during the jewelry refining process.

Last but not least, Denis Mourlam is positive: **he maintains that 3DESIGN promotes and develops creative skills**. Denis Mourlam is always busy designing new models, enjoying the best of the solution. **"I get real support from the 3DESIGN team: they really listen to you and make it a point to answer your questions** and provide recommendations and alternatives for your specific needs. Every 3DESIGN users get the chance to promote new software development proposals in a pragmatic and participative way, and so did I!"
